

## **School of Engineering Open Day**

The School of Engineering (SoE) held its first open day on Saturday, March 12, 2016 at the Central Catering Unit (CCU). The principal, Prof. Peter Ngau, who was also the chief guest, while giving his remarks, thanked all the engineering students for organizing the event. He further requested them to always remain active in participating during such occasions, as they added a value of success in their future endeavors.

The Dean, SOE, Prof. J. Mbuthia, informed the engineering students that the event belonged to them and that the school was looking forward in involving all students in such events. He said that students should always be vocal in sharing ideas that make such occasions successful.

The open day was also attended by high school students from Mary Leakey Girls and Aquinas. Various activities also took place which included a football match, project presentations as well as departmental exhibitions.
